

Why is DDS the Right Technology for the Industrial Internet?

The Real-Time Communications Platform for the Internet of Things™

Your systems. Working as one.

The Internet of Things

2014 Top Tech Trends

- **1) Internet of Things**
- The IoT promises to be the most disruptive technological revolution since the advent of the World Wide Web. Projections indicate that up to 100 billion uniquely identifiable objects will be connected to the Internet by 2020, with enormous technical, socioeconomic, political, and even spiritual consequences.

Top Ten Strategic Technology Trends for 2014 :

- Mobile Device Diversity and Management
- Mobile Apps and Applications
- The Internet of Everything
- Hybrid Cloud and IT as Service Broker
- Cloud/Client Architecture
- The Era of Personal Cloud
- Software Defined Anything
- Web-Scale IT
- Smart Machines
- 3-D Printing

What is the Internet of Things?

- Cisco “Internet of Everything”
 - ...**the latest wave of the Internet** -- connecting physical objects...to provide better safety, comfort, and efficiency
- IBM “Internet of Things”
 - ...a **completely new world-wide web**, one comprised of the messages that digitally empowered devices would send to one another. It is the same Internet, but not the same Web.
- GE “Industrial Internet”
 - ...convergence of machine and intelligent data...to **create brilliant machines**
- RTI “Your Systems. Working as One.”
 - RTI exists **to enable and realize the potential of smart machines to serve mankind**... The IoT is as profound as the cell network, GPS, or the Internet itself. The Internet of Things and the Intelligent Systems it enables will fundamentally change our world.

The OMG's Industrial Internet Consortium

Home About Members Become a Member Working Committees Steering Committee Industries Resource Hub News FAQ Contact Us **Members' Area**

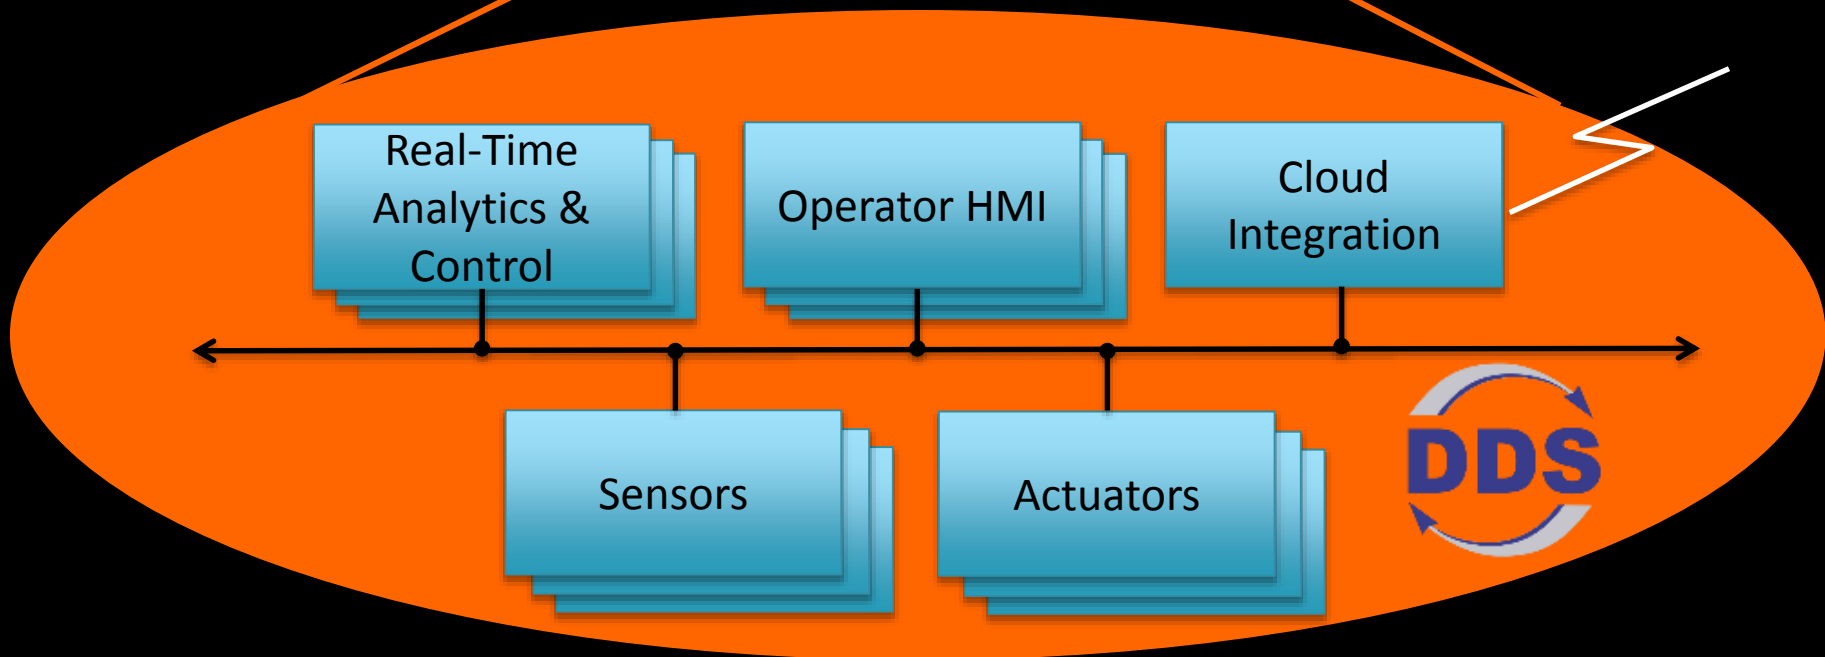

Industrial Internet Consortium

- **OMG manages the IIC**
- Goal is to bring standards clarity to the Industrial Internet
- 5 large company founders, led by GE
- RTI is an IIC launch member & on OMG board

DDS Distributes Device Data

Data Distribution Service (DDS)

The Core Nervous System for the Industrial Internet of Things™

Your systems. Working as one.

Critical Infrastructure Trusts RTI

- World's largest Wind Power company
- World's largest Underground Mining Equipment company
- World's largest Navy (all surface ships)
- World's largest Automotive company
- World's largest Emergency Medical System company
- World's largest Medical Imaging provider
- World's 2nd largest Patient Monitoring manufacturer
- World's 2nd largest Air Traffic control system
- World's largest Flight Simulator company
- World's largest Broadcast Video Equipment manufacturer
- World's largest Launch Control System
- World's largest Telescope (under construction)
- World's 5th-largest Oil & Gas company
- World's 6th-largest power plant (largest in US)
- All of world's top ten defense companies

Over \$1 trillion
relies on RTI

What Can DDS do for the IIoT?

- Healthcare
- Transportation
- Communications
- Industrial
- Defense
- Energy

What can DDS do for the Industrial Internet?

Unite Real-Time, Mobile, and Cloud

- The largest EMS equipment provider supplies emergency response equipment to 60% of the world's emergency vehicles
- Uses RTI middleware for **in-vehicle platform, mobile device bus, cloud connectivity**

Deliver Fast Data On Time

- The Minimally Invasive Robotic Surgery (MIRS) system at DLR coordinates three robots to perform delicate heart surgery.
- The system closes a **distributed loop** between the robots and the remote surgeon's control **at 3kHz**.
- RTI **enables new medical techniques**

Connect Diverse Devices

- Hospital error is the 6th leading cause of preventable death
- DocBox integrates devices to improve patient safety
- RTI Connex **ties together devices, services, and displays in real time**

“RTI Connex DDS met all our needs – whether we’re handling 12 patients, or 200.”

-- DocBox Founder, Tracy Rausch

Integrate System of Systems

- Hospital net challenge
 - 1000s of patients, >100k devices
 - Wired/wireless/ISM
 - Moving patients
 - 100% uptime, security
 - Real-time waveforms

- RTI technology
 - Data centric addressing
 - Smart data filtering
 - Routed deployment
 - Optimized updates
 - Automated test harness

Transform Product Architectures

BK Medical
Ultrasound Products

bk medical

“BK Medical is truly redefining Medical Ultrasound Imaging where the traditional single user / single system approach is being replaced with fully **scalable** and **distributed** multi-user systems

This required a completely new way of gluing the individual components together. For this reason we selected the **RTI Connex DDS middleware** as this gives us all the **flexibility and the abstraction layer** needed for the future of Analogic Ultrasound”

-- Jesper Lomborg Manigoff, VP of Engineering, Analogic Global Ultrasound

Provide a Common Platform

"GE Healthcare chose the DDS standard because it can **handle many classes of intelligent machines**.

RTI Connex DDS satisfies the demanding requirements of our devices, and **RTI has the depth and experience** necessary to partner with us in order to meet our stringent standards.

Additionally, RTI's Connex DDS allows us to **standardize on a single communications platform across product lines.**"

-- J Gustavo Perez, General Manager for
MI&CT Engineering

Revolution®

Ensure Reliability for Complex Systems

- Mevion's Proton-Beam Radiation Therapy system zaps tumors with accelerated protons
- The treatment must be continuous for 30-40 days; **downtime endangers treatment success**
- With RTI Connex DDS, Mevion's PBRT delivers **dependable treatment at low cost**

First patient treated Dec 2013,
Siteman Cancer Center, St. Louis

Share Voice & Video

- Exelis (ITT) C4i provides command and control systems for military and civilian agencies (fire/police/emergency response)
- RTI Connex DDS connects GUIs to servers that route voice and video
- RTI met the critical needs: **scalability, routing, recording**

Enable Software Defined Machines

- RTI provides fast backplane communications for telecom equipment
- RTI & Cisco recently submitted an RFI for Software Defined Networking (SDN) to OMG
- RTI can update thousands of switches in one action
- RTI Connex DDS supports 1000s of apps, 50k+ namespaces

Drive Smart Reactive Systems

- The VW Driver Assistance and Integrated Safety system combines radars, laser range finders, and video to assist safe operation
- It helps avoid obstacles, detect lane departures, track eye activity, and safely negotiate bends

- RTI enables **advanced reactive systems** in transportation

Facilitate Plug-n-Play Across Vendors

Audi

- Audi hardware-in-the-loop simulation feeds realistic data to components for testing
- The system offers **plug-n-play** between simulation vendor solutions
- RTI middleware enables a **modular test environment that scales** to work with hundreds of devices

Ensure 24x7 Operation

*RTI Connex DDS was selected for its extensive compliance with the Object Management Group (OMG) DDS standard; its high **security** rating; its wide support of tools and programming languages, and its reputation for **performance, scalability, and 24/7 reliability***

- Sid Koslow, Chief Technology Officer, NAV CANADA.

Air Traffic Control for Canada
2nd largest ANSP in the world
7 major centers

Work in Harsh Environments

- Joy Mining is the world's largest mining equipment manufacturer
- RTI Connex DDS connects the controller, operator GUI, and historian
- Reliable, fast connectivity enables control, debugging, and system health monitoring for continuous mining

Integrate Industrial PLCs

- Schneider is a global factory automation manufacturer
- RTI Connext DDS eases PLC integration, provides up-to-the-minute data
- Connext Micro works with limited memory and processing power on PLCs
- RTI middleware **connects factory PLCs and IT systems**

Connect Large SCADA

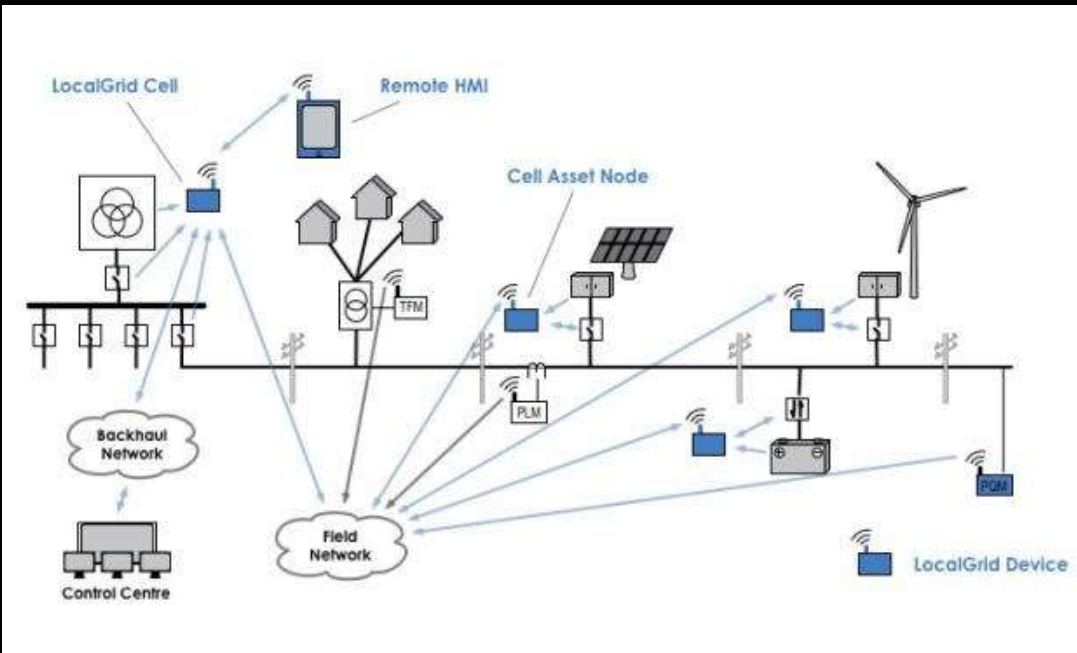

- NASA KSC's new Constellation launch control SCADA system
- RTI delivered 300k points, at 400k msgs/sec with 5x the required throughput, at 1/5 the needed latency
- NASA mitigated risk by parallel-tracking multiple DDS vendors
- RTI connects thousands of sensors and actuators

Truly Distribute Control

- Siemens Wind Power fields farms of 500 turbines with 100m blades
- Connex DDS implements fast control within turbines and gust control across the array
- RTI enables distributed intelligent machines

Move Intelligence to the Edge

- MicroGrids connect generation, load, and storage to optimize usage and eliminate traditional grid infrastructure
- RTI Connex™ DDS middleware seamlessly integrates apps, enforces security, merges NI LabVIEW

Power Critical Infrastructure

- RTI Connex DDS controls the 6.8 GW Grand Coulee Dam
 - Largest power plant in North America
 - Fastest-responding major power source on the Western Grid
 - Requires 24x7 operation
- RTI met the challenges
 - Extreme availability
 - Wide area communications
 - Multi-level routing
 - High security
 - 300k data values
- **RTI system live since Jan 2014**

Choose DDS If...

- ✓ Disaster if offline for 5 minutes?
- ✓ Measure performance in ms or us? Or scale >100+ applications? Or 10k+ data values?
- ✓ Code active lifetime >3 yrs?

- 2 or 3 checks? => DDS

End-to-End DataBus

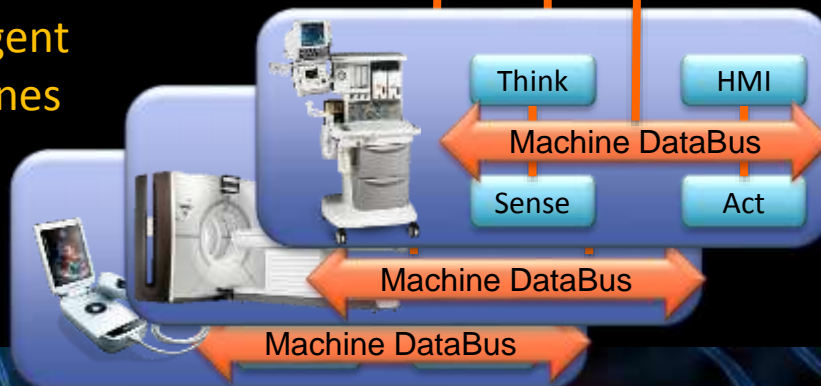

- Connect...
 - Fast
 - Seamless
 - QoS controlled
 - Secure
 - Data centric
- ...80 Platforms...
 - Micro controllers
 - Certified systems
 - Embedded
 - Mobile
 - Desktop
 - Cloud
- ...over 12 Transports
 - UDP or TCP
 - D/TLS (secure)
 - Wireless or wired
 - Shared memory
 - Backplane
 - Cloud virtual connect

Connex makes Security *Practical*

- Complete Protection

- Discovery authentication
- Data-centric access control
- Plug-in cryptography
- Tagging & logging
- 100% standards compliant

- Simple Detection

- Easy retrofit to legacy
- Facile data tapping
- Detailed meta data access
- Quick scripting detection

About RTI

- Market Leader
 - Over 70% DDS mw market share¹
 - Largest embedded middleware vendor²
 - 2013 Gartner Cool Vendor for **technology and Open Community Source** model
- Standards Leader
 - Active in 15 standards efforts
 - OMG Board of Directors
 - DDS authors, chair, wire spec, security, more
 - Launch member of Industrial Internet Consortium
- Real-Time Pedigree
 - Founded by Stanford researchers
 - High-performance control, tools history
- Maturity Leader
 - 750+ designs; **by far the most-used DDS**
 - Used in TRL 9 systems
